To Whom It May Concern:

It gives me great pleasure to recommend to you Brenda Stephens, Realtor and owner of Showcase Homes in Kingwood, Texas. I have personally known Brenda Stephens for a year through her business activities with StarTex Title Company. I have also been in her home where she is a very gracious hostess.

Brenda has the reputation in our community of being an honest, very hard-working Realtor. I know that she often works seven (7) days a work in order to service her clients in selling or buying their homes. Brenda also goes the extra step to stage her homes as a normal part of her business in order to bring about the desired sale. She maintains many items in her inventory in order to effectively stage a home. Brenda is so respected in the Real Estate Community in which she practices because she sales homes even when the market is slow. That is because she is tireless in doing the extra things that will accomplish a buy or sale. When many of us are resting on weekends, Brenda is showing homes, staging homes, or holding open houses. I have never seen a Realtor work harder than Brenda Stephens does for her clients. The clients just love her and any home with Brenda in it would be beautiful.

If I might add a personal note about Brenda, she is one of the most beautiful and professionally dressed Realtors in the area. She does take serious care of her physical self in order to perform in the superior fashion know to be her trait. I, personally, find it unusual in a Realtor of her accomplishment to be so eloquent and kind in her knowledgeable presentation and speech to whomever she meets during each encounter of daily life. Brenda is truly a beautiful person inside and out. She is so kind to people of all walks of life along with providing great Real Estate guidance to her clients. In my humble opinion, she represents the very best of Real Estate. I give her highest regards for knowledge of her profession, work ethic, and the personal and professional beauty utilized to achieve the desired result for her clients. I feel very privileged to know her.

Along with the above-assets, I would sincerely recommend her skill and integrity in any area of real estate without the slightest hesitation. Brenda is very accomplished in her profession. This is a statement of fact to those of us who personally know Brenda Stephens. Finally, I believe Brenda Stephens would be one of the greatest assets any company could find to assist their personnel with real estate transactions. She just goes the extra mile with a smile. Her skill and graciousness in dealing with people would be representation any company would be extremely proud to claim.

Sincerely,

Jean McNeil
